

Certified recyclers in the NIPCO System

Most county landfills are approved drop-off locations for responsible appliance recyclers. In most cases, there will be a nominal fee associated with the appliance drop-off. Here is a list of known locations. Please call ahead to confirm that these locations will accept your old appliance. This list does not serve as a comprehensive list of all landfills and certified appliance recyclers. Please check with your city or county for more information or visit www.wastebits.com/locator/region/lowa for more information.
